

Changing the way we use conversation to shape our future

World Café Europe (WCE) supports opportunities for citizens to actively participate and identify solutions for issues that matter to them locally, regionally and for Europe. WCE provides the professional know-how and passion to foster effective citizen engagement through large-scale dialogues in partnership with multiple stakeholders.

All of our efforts are designed to foster a new culture of conversation which empowers people from all walks of life to discover his/her own innovative spirit to make a difference. Through the use of various forms of communication, WCE provides opportunities for individuals to become *active* participants in conversations. Through their participation, citizens experience a deep exchange of knowledge with one another and feel empowered to explore the potential of their collective wisdom to address the issues that matter to them today and in the future.

World Café is a registered non-profit organization with the German government authorities:
Amtsgericht München UR Nr. 3090/2006 – VR 200743
